*"We have worked with **Islam Ali** for 14 years at **OrangeBuddies** and for 4 years at **Sniptech**. Throughout this time, Islam has consistently proven himself to be an exceptional full-stack developer and DevOps expert, playing a critical role in the success and stability of our platforms.*

***Islam** has architected and maintained our cashback platform, which serves millions of users across Europe. He has managed our AWS infrastructure, consisting of over 50 production servers, ensuring reliable uptime, performance, and security. His deep DevOps knowledge, combined with his backend expertise in PHP, Python, Java, and Kotlin, has enabled the seamless delivery of highly customized and scalable cashback solutions.*

From building and integrating complex APIs to leading infrastructure deployments and system migrations, Islam has always approached challenges with professionalism, ownership, and technical excellence. His ability to work independently and handle mission-critical environments has made him a trusted expert.

*We strongly recommend **Islam Ali** to any organization seeking a reliable, skilled, and long-term technology expert."*

— **Erik Drijkoningen**
Managing Director, OrangeBuddies Media
